

## Preventive Medical Services Price List

The Tokuda Preventive Medicine Center provides specialized consultations and medical testing according to gender, age and profession. We have designed several preventative medical service packages and of course we can custom tailor our services for a specific patient or group of patients depending on your needs. The below prices are subject to change reflecting any specific price changes in our hospital price list.

We at Tokuda Hospital Sofia, following the Japanese philosophy of health care, emphasize prevention and early diagnosis to effectively treat socially significant diseases including cardio-vascular, cancer, diabetes and metabolic disorders. Our medical teams aim to raise public awareness to change the common practice of only visiting the doctor when people feel ill. We provide the means and access for a healthy person to stay healthy by meeting with and consulting with his medical specialist to address any health risks he or she may have.

№	Medical Service Package/Service Descriptions	Unit Price (leva)
<b>1</b>	<b>"Apollo Universal", designed for men.</b>	
a)	Primary clinical examination Internal Diseases	35.00
b)	Primary clinical examination Urology	35.00
c)	Consultative examination by Echo Cardio Graph (ECG) Cardiology	72.00
d)	Venous blood withdrawal Clinical Laboratory and Immunology	5.00
e)	Complete blood count, automatic, with 5-part differential Clinical Laboratory and Immunology	6.00
f)	ESR- Westergeen Clinical Laboratory and Immunology	2.00
h)	Chemical urinalysis by dry tests, total 11 parameters Clinical Laboratory and Immunology	3.00
<b>Total</b>		<b>158.00</b>
<b>2</b>	<b>"Apollo Universal Plus", designed for men who smoke or are ex-smokers.</b>	
a)	Primary clinical examination Internal Diseases	35.00
b)	Primary clinical examination Urology	35.00
в)	Consultative examination by Echo Cardio Graph (ECG) Cardiology	72.00
r)	Testing with ultrasound of abdominal organs and pelvis Internal Diseases	30.00
д)	RADIOGRAPHY, pulmonary system, lungs Medical Imaging	25.00
e)	Diagnostic ultrasound of the urinary-reproductive systems Urology	35.00
ж)	Venous blood withdrawal Clinical Laboratory and Immunology	5.00
з)	Complete blood count, automatic, with 5-part differential Clinical Laboratory and Immunology	6.00
и)	ESR- Westergeen Clinical Laboratory and Immunology	2.00
к)	Chemical urinalysis by dry tests, total 11 parameters Clinical Laboratory and Immunology	3.00
<b>Total</b>		<b>248.00</b>
<b>3</b>	<b>"Mars Optimal", annual exam for men over 40 years of age.</b>	
a)	Primary clinical examination Internal Diseases	35.00
b)	Primary clinical examination Urology	35.00
c)	Consultative examination by Echo Cardio Graph (ECG) Cardiology	72.00
d)	Venous blood withdrawal Clinical Laboratory and Immunology	5.00
e)	Complete blood count, automatic, with 5-part differential Clinical Laboratory and Immunology	6.00
f)	ESR- Westergeen Clinical Laboratory and Immunology	2.00
g)	Chemical urinalysis by dry tests, total 11 parameters Clinical Laboratory and Immunology	3.00
h)	Urine sediment - approximate Clinical Laboratory and Immunology	2.00
i)	Glucose - Serum Clinical Laboratory and Immunology	3.00
j)	Cholesterol Clinical Laboratory and Immunology	3.00
k)	Triglycerides Clinical Laboratory and Immunology	3.00
l)	Creatinine - Serum Clinical Laboratory and Immunology	3.00
m)	Aspartate Aminotransferase Clinical Laboratory and Immunology	3.00
n)	Alanine Aminotransferase Clinical Laboratory and Immunology	3.00
o)	Gamma-Glutamyl Transferase Clinical Laboratory and Immunology	3.00
p)	Urinary acid Clinical Laboratory and Immunology	3.00
q)	TSH Clinical Laboratory and Immunology	15.00
r)	PSA-Total Clinical Laboratory and Immunology	18.00
s)	Testing with ultrasound of abdominal organs and pelvis Internal Diseases	30.00
x)	RADIOGRAPHY, pulmonary system, lungs Medical Imaging	25.00
y)	Diagnostic ultrasound of the urinary-reproductive systems Urology	35.00
<b>Total</b>		<b>307.00</b>
<b>4</b>	<b>"Mars Optimal Plus", annual comprehensive exam for men over 40 years of age.</b>	
a)	Primary clinical examination Internal Diseases	35.00
b)	Primary clinical examination Urology	35.00
c)	Consultative examination by Echo Cardio Graph (ECG) Cardiology	72.00
d)	Venous blood withdrawal Clinical Laboratory and Immunology	5.00
e)	Complete blood count, automatic, with 5-part differential Clinical Laboratory and Immunology	6.00
f)	ESR- Westergeen Clinical Laboratory and Immunology	2.00
g)	Chemical urinalysis by dry tests, total 11 parameters Clinical Laboratory and Immunology	3.00
h)	Urine sediment - approximate Clinical Laboratory and Immunology	2.00
i)	Glucose - Serum Clinical Laboratory and Immunology	3.00
j)	Cholesterol Clinical Laboratory and Immunology	3.00
k)	Triglycerides Clinical Laboratory and Immunology	3.00
l)	Creatinine - Serum Clinical Laboratory and Immunology	3.00
m)	Aspartate Aminotransferase Clinical Laboratory and Immunology	3.00
n)	Alanine Aminotransferase Clinical Laboratory and Immunology	3.00
o)	Gamma-Glutamyl Transferase Clinical Laboratory and Immunology	3.00

No	Medical Service Package/Service Descriptions	Unit Price (leva)
p)	Urinary acid	Clinical Laboratory and Immunology 3.00
q)	TSH	Clinical Laboratory and Immunology 15.00
r)	PSA-Total	Clinical Laboratory and Immunology 18.00
s)	Testing with ultrasound of abdominal organs and pelvis	Internal Diseases 30.00
x)	RADIOGRAPHY, pulmonary system, lungs	Medical Imaging 25.00
y)	Diagnostic ultrasound of the urinary-reproductive systems	Urology 35.00
